CUBOFIT
PRO

1. CUBOFIT **PRO**

fits your needs

CUBOFIT **PRO** is the perfect solution for football clubs that struggle to find suitable spaces for strength and conditioning training. With CUBOFIT PRO, football players can train conveniently without having to travel long distances to reach their gym. The equipment and accessories provided by CUBOFIT PRO are designed to cater to the specific needs of football players, ensuring that they can train effectively and efficiently. Moreover, the burden of transferring equipment from the gym to the field is eliminated, making the training process smoother and more efficient for staff. With CUBOFIT PRO, football clubs can take their performance to the next level

CUBOFIT PRO is the perfect solution if:

- You're looking to integrate strength training areas, whether for prevention, rehabilitation, or functional strength, within your club's structure, be it for the first team, reserves, or academy teams.
- You want to bring your strength training space closer to the playing field.
- You aim to optimize time, reduce efforts, and enhance the quality of functional training on the field.

4. ¿What's CUBOFIT PRO ?

CUBOFIT **PRO** is a container transformed into a Functional Training Center tailored to the needs of elite football clubs, equipped with gym equipment both inside and on its own structure. It is designed for functional football player training, either individually or with the entire team, as it encompasses all the equipment a conventional gym offers. Its innovation ensures football teams a range of benefits that will revolutionize their training and preparation for success on the field.

Moreover, it can be set up in just 5 minutes, making it a perfect solution for clubs with a tight schedule.

Sustainability

We are committed to the environment, and that's why our CUBOFIT PRO models feature solar panels, allowing them to be self-sustaining training spaces for

professional players, resulting in significant electricity savings. Our sustainability features make us an eco-friendly option for football clubs looking to reduce their carbon footprint.

PREMIUM Finish painting

We use 2-component EPOXY Paint and a floor coated with MATT EPOXY for anti-slip resistance. Our premium finish painting ensures that our equipment is durable, lasts longer and looks great.

CUBOFIT PRO 

KEY FEATURES

Time optimization

Our center enables you to bring specific strength, preventive, and rehabilitation training to where it's needed, eliminating the need for travel and optimizing the time for your football players. Our high mobility and adaptability make it easy to train anywhere you want.

High mobility and adaptability

Our center is highly mobile and adaptable to any confined space. It solves issues related to gym space constraints and reduces the distance between the gym and the football field. You can train anywhere you want, making your training more effective and tailored to your needs.

Immediate assembly

Our CUBOFIT PRO can be assembled immediately, saving you time and enabling you to start training your football team without delay. Our immediate assembly is perfect for clubs with a tight schedule.

High specificity in football

Our CUBOFIT PRO caters to the professional football domain, incorporating equipment that enables necessary exercises for your players to enhance their performance on the field, such as inertial conical pulleys. Our high specificity in football ensures that your players get the best training possible.

Sustainable savings

Our CUBOFIT PRO has low implementation and maintenance costs. Energy self-sufficiency and non-polluting. Recyclable. Our sustainable savings make us an eco-friendly option for football clubs looking to reduce their impact on the environment.

Personal sports customization

Our CUBOFIT PRO is exclusively configured according to the specific needs of your football team and the requests of your fitness coaches. Your training will be unique and tailored to your goals. Our personal sports customization ensures that your players get the best training possible.

Guaranteed durability

Our CUBOFIT PRO is of high quality and durability. This product is designed to withstand intensive use and deliver exceptional performance for professional players over time, translating into a long-term investment. Our guaranteed durability ensures that your investment is worth it.

CUBOFIT PRO 10"

Four doors, endless training options.

Our center has four doors, enabling you to train from any angle. The cutting and machining work on the doors, with furniture and rack ironwork, ensures that your training is effective and tailored to your needs. Our floor is coated with anti-slip matte EPOXY, ensuring your safety during training.
